

Acetate cloth tape No.5 / No.156A

Acetate cloth tape offers both superior heat resistance and superior flexibility.

➤ **Outline**

Nitto Denko No. 5 / No. 156A are electrical insulation tapes consisting of acetate tape coated with acrylic and rubber adhesive. No. 156A is UL-certified, flame-retardant adhesive tape that is used for electrical insulation in electric/electronic equipment and electrical insulation protection and banding of wire harnesses.

No.5 (Black)

➤ **Features**

Acetate cloth base offers more than enough physical strength including tensile strength.
Offers superior flexibility and excellent sealing.
Offers superior corrosion resistance.
Ideal for sound reduction and banding.

➤ **Structure**

➤ **Specifications**

Product No.	Color	Thickness (mm)	Length (m)
No.5	White/black	0.23	30
No.156A	White/black	0.25	30

➤ **Properties**

Product No.	Elongation(%)	Breakdown voltage (kV)	Peeling strength (N/25 mm)	Tensile strength (N/25 mm)
No.5	20	3.0	5.2	128
No.156A	21	3.0	8.1	123

➤ **Applications**

Protection, sound reduction, identification and banding of wire harnesses
Insulation of wire harness joints
